CURLING SHOE CUSTOMIZATION

CUSTOMIZE YOUR CURLING EXPERIENCE WITH ASHAM!

At Asham, customization isn't just an option—it's what we do best. As industry pioneers, we combine expert craftsmanship with innovative design to give you complete control over your curling shoes.

Manufactured in our Winnipeg facility, every pair is built with precision and care, allowing for unmatched quality and endless customization possibilities. Whether you're looking for specific slider materials, unique configurations, or a fully personalized design, we have the expertise to bring your vision to life.

TOE DIP

The Toe Dip is a coating applied to the trailing foot to reduce drag. Depending on how your trailing foot contacts the ice you may find the toe dip improves the feel and speed of your delivery. Our toe dip material is flexible and will not make the trailing foot hard, which can contribute to drifting. Stiff toe dip is available by request. Toe dip cannot be removed once dipped. Available in multiple colors.

HINGE

The Hinge is a split in the slider at about the halfway point of the slider to allow for bend. The hinge is good for tuck or toe sliders using Teflon®.
